Test facilities

[ValidatieTestService \(VTS\)](#) (DTCA)

The ValidatieTestService (VTS) is a service provided by the NTCA and available to software developers. The service offers the opportunity to software developers to check if the XML-messages generated through software, meet the Message- and Dataspecifications applicable for that message.

The VTS is only accessible for those with a subscription.

[Aansluit Suite Digipoort](#) (ASD) (Logius)

Logius' Aansluit Suite Digipoort provides functionality to assist in connecting to Digipoort (Process Infrastructure) and exchanging messages. The primary purpose of the Aansluit Suite Digipoort is to support the software developer in the development of system interfaces with Digipoort.

Test scenarios for Digipoort's FTP interface are available on this page:

<https://aansluiten.procesinfrastructuur.nl/site/testen-services/testen-aanleverproces-ftp-1.6.1>.
